Education

Swiss Federal Institute of Technology in Lausanne (EPFL)

Sept 2023 – Present

Bachelor of Science in Computer Science

- First semester grade: 5.33/6.00

Lycée Bellevue, Albi

Sept 2020 – July 2023

Baccalauréat général - Mathematics, Physics-Chemistry

- Obtained with highest honors

Projects

ReCHor

Feb 2025 – May 2025

- Semester project for the practical object-oriented programming course, involving the development of a Java application similar to the *SBB* one, enabling you to search for public transport routes.

HashAudit

March 2025

- Project developed in 24 hours during the *Hedera x EPFL Blockchain Student Association* hackathon. It relies on decentralized identities (DIDs) to enable companies to transparently share their financial health, while preserving the confidentiality of their data.
- **Tools used:** JavaScript, Hedera Hashgraph DID, React, Figma

ICMon

Nov 2023 - Dec 2023

- Project carried out as part of the introductory programming course (Java), consisting in developing a grid game inspired by the first opuses of the *Pokemon* license.

Volunteering

Coaching EPFL

Sept 2024 – Present

- Organization of events to help integrate first-year students.

Festival Balélec

May 2025

- Participation in festival organization.

Éclaireuses Éclaireurs de France (EEDF)

Sept 2022 - Aug 2023

- Organization of one weekend per month and a summer camp.
- Educational transmission of scouting values and methods.
